Tips for safe travels

from UT Health Quitman.

Like millions of Americans, your holiday season likely will involve some driving. So, we've assembled some road trip tips for you.

Have your vehicle checked. Lights, oil, tires, belts, hoses, brakes, antifreeze and battery all need to be inspected before departure. Take along roadside assistance information and keep your cellphone charged in case of emergency.

Review weather and road conditions. Call 511, America's travel information line or visit SafeTravelUSA.com to learn information about your route. Consider travel times that avoid the heaviest traffic.

Be prepared for emergencies. Keep a blanket, boots, gloves, flashlight, food and water supplies in the vehicle. Cat litter or sand can be used to improve traction on icy surfaces.

Buckle up. Be sure everyone in the car is buckled up at all times, even for a quick trip down the road.

Stay alert when driving. The National Highway Traffic Safety Administration estimates that nearly 100,000 crashes a year are the result of driver fatigue. To combat this, get eight hours of sleep before departing and take breaks - approximately 15 minutes for every two hours on the road.

Let's not meet by accident. At UT Health East Texas we know the dangers of driving because we treat hundreds every year for vehicle-related accidents at our emergency and trauma centers. We hope these tips help you travel safely and have a happy holiday season.

I love playing games with my family is because you spend time with them and it's a lot of fun to hagg out with family.

Why I love playing games alone is because some times we don't all the time to play games because my family has to do stuff. As you can see my family loves to play games together.

My favorite thing about Christmas There are many things I like about but here are favorite two. Giving and Jesus. The reason I like giving is because I like seeing smiles on people's faces. Every year I donate money to the rainbow room. The reason I do that is because I want people to have food for the holidays. But this year I want to make it bigger than ever. I want every body to donate money, cans, cloths, toys, or anything you can get your hands on. Another thing I like about Christmas is Jesus. I like it because it's Jesus birthday. And if he wasnt born on Christmas we wouldnt have it. As you can see I like a bunch about Christmas but those are my favorite.
Ava Coventry

I like the colors on the presents because all of the colors that are on the presents like blue and red and brown and green and yellow. I like on the presents and the new toys you get it is fun to play with the new toys that you got on Christmas. I love spending time with my family and be happy.

Barry Harville

I love so many things about Christmas but my favorite thing about it is getting to play with my elf. My first reason is when I take her to school I don't get in trouble as much. When I wake up I try to find her because it's like a scavenger hunt she leaves clues so I can find her. Some times I try to find her before school but it's difficult because she can fit anywhere that's why I like it.

Haidyn Woodson

I have a lot of favorite things about Christmas but the thing I mostly like is singing songs about Jesus's birth. Here is the first song I will write about it is called "Joy to the world." I like it because it talks about how excited people were when Jesus was born. The second thing is another song it is called "Silent night." I like it because it says how quiet baby Jesus was when he was born. This is my last song. I will write about it is called "What child is this?" I like it because it talks about what child that is laying in Mary's lap.

Francisco Reyes

I love putting decorations up and seeing family but I really love Jesus's birthday the most. Because we would have no Christmas. And we wouldn't see our family or friends or be able to celebrate his birthday. Another reason I like Christmas is because you can make a cake and other yummy things of food. And set up the table and the food also plates. My last reason is giving and getting presents because some kids don't have a lot of toys like we do. So that's what I love about Christmas.

Ryan McKnight

I love many things about Christmas like decorating Christmas cookies and making Christmas cookies but I really like celebrating Jesus. I love celebrating Jesus because he is very important and because he died on the cross for my sins. When we celebrate Jesus we get to make Christmas cookies because we have a Christmas party. When I have a snowball fight I also like building a snowman. I like opening presents and playing with them if it is something I can play with. So I don't have to play with my old things. I like playing board games like monopoly and dominos. Me and my family like playing board games at Christmas time. Sometimes you have to let my brother win or he will cry. Now you should know my three favorite things about Christmas.

Jordan Ray Ingram

I like Christmas because we can play in the snow but the one and only thing I like is that we get to celebrate Jesus's birthday all together as a family. When we play in the snow together we all make snow angels and build a snowman. After we are done playing in the snow we warm up and get dressed and go to Santa land to look at all the lights and take a picture with Santa Claus. When we're back home we get to eat pie and celebrate Jesus's birthday as a family and with friends. When we finish we get to eat some dessert. When it's Christmas we all celebrate with family and friends and Jesus's birthday. Be happy, joyful, kind, loving, and in a good mood.

Chloe Hux

I like to decorate my tree and my house but I rather take out the toy from the rapper and see what is inside of the rapper. The rapper play with it or build it. I would take it outside rapping and play with it. I will be playing with it a lot. When I take it out of the rapper I will see what is inside of the rapper and put it back in it. If it was legs I would build a lot and be happy about it and play with it a lot. When Santa comes and it is the presents and presents are at the tree. I open them.
